Industry: FrontEnd Web Development

I have made my decision to change the directions of my life towards technology, so i decided to break into this world through web development -FrontEnd Web Development specifically-.

I have studied HTML, CSS & JavaScript and i have build some simple projects using them including this CV.

**My Future Plans:** I will join a bootcamp soon to study C++, OOP, Algorithms and Data Structures and during this bootcamp i will study React in order to be able to apply for a job as a Junior FronEnd Developer after the bootcamp.

**Jul 2021 to August 2022**

**Sales Specialist at Orchida Soft**

Cairo, Egypt

Industry: Information Technology Services

We have developed a software to help companies in Egypt and Saudi Arabia to manage the E-Invoices of the Tax Authority.

My role is how to market and sell this software to the financiers in Egypt and KSA, and we have achieved such a great success at this project, we are one of the leading companies in this field (Taxes Digitalization Software).

And it works perfectly with a large number of the financiers such as (Samsung, Coca-Cola, Toyota, Domty and many more).
